

It's race time!

I "think" the bad weather here in North East Ohio is over...
I "know" it's time to get ready for the upcoming pylon racing season!

Pylon Racing School (PRS) is 4 days this year, no excuse for not making it! April 28, 29, 30 and May 1. The Pylon Light And Timing Equipment (PLATE) will be set up for all 4 days. It will help participants to check on their progress and see how and where to improve. We will run practice heats with detailed printouts of lap times and cut data. Participants will be asked to man the course equipment.

Please go to the AMA International Aeromodeling Center (IAC) Calendar for details on the event schedule for this year:

<https://www.modelaircraft.org/iac-calendar>

Now is the time to preregister for our Regional races at:

<http://www.capsracing.com/>

Preregister early as it helps us to put on the best possible races!

The FAI Pylon Racing World Championships are coming to the USA this year! The fastest pilots and aircraft in the world will be in Muncie this July just before the US Nationals. Again, check the AMA IAC Calendar for details. Plan on visiting the event as it does not come to the US very often.

Help us put on the best possible races, join CAPS. Membership form included.

Preregister, join CAPS, stay safe and healthy!
